

SCHOOL WORKSHOPS

Teaching primary and secondary school level stencil workshops has been a natural evolution within Flox's practice. It's about giving back and sharing the knowledge that she's gathered across her artistic lifetime.

The workshops are about sharing and guiding students through the processes of stencil cutting, spray painting and learning the techniques involved in creating multi-layered artworks, with all materials supplied.

Flox has adapted her teachings to fit any age (from year 5 and up), so get in touch if you think your students have got the inkling to pick up a can of spray.
